Profile

Software Engineer with 2+ years of experience in designing, developing, and maintaining web applications using PHP, Laravel, ReactJS, and MySQL. Proficient in building RESTful APIs, implementing complex business logic, database management, and developing responsive user interfaces. Possess working knowledge of Python Full Stack Development, including Python, Django, HTML, CSS, JavaScript, Bootstrap, and MySQL. Experienced in delivering production-ready applications, optimizing performance, integrating third-party services, and collaborating with cross-functional teams using Git. Strong problem-solving skills with a passion for learning new technologies and contributing to scalable, high-quality software solutions.

Skills

- | | |
|------------------|---------------------------|
| • PHP | • Laravel |
| • HTML5 | • CSS3 |
| • JavaScript | • Bootstrap |
| • jQuery | • AJAX |
| • MySQL | • RESTful APIs |
| • Git | • MVC Architecture |
| • React.js | • Node.js |
| • Python (Basic) | • AI-Assisted Development |

Experience:-2.5 Years

Software Engineer, Akiko Sherman Infotech Pvt. Ltd

12/2025 | New dellhi

- Developed and maintained enterprise web applications using PHP, Laravel, MySQL, JavaScript, jQuery, AJAX, HTML5, CSS3, and Bootstrap.
- Designed and integrated secure RESTful APIs for seamless communication between application modules and third-party services.
- Optimized backend logic, database design, and SQL queries to improve application performance and scalability.
- Developed new features, enhanced existing modules, and resolved production issues based on business requirements.
- Collaborated with cross-functional teams to deliver high-quality software within project timelines.
- Improved database performance through SQL query optimization and efficient data management.
- Managed source code, deployments, and version control using Git while following Agile development practices.
- Troubleshoot production issues, performed debugging, and ensured application stability and reliability.
- Participated in requirement analysis, code reviews, and technical discussions to deliver scalable and maintainable solutions.

Software Engineer, Wayone It Solutions

08/2024 – 12/2025 | New Dellhi

- Developed and maintained enterprise web applications using PHP, Laravel, React.js, and MySQL.
- Designed and integrated RESTful APIs for secure and seamless frontend-backend communication.
- Built responsive and interactive user interfaces using HTML5, CSS3, JavaScript, and Bootstrap.
- Developed business modules, authentication, role-based access control, and admin dashboards.

- Optimized MySQL queries and backend logic to improve application performance and scalability.
- Collaborated with cross-functional teams using Git while following Agile and SDLC practices.

PHP Full Stack Developer Trainee, Makkpress Technologies

04/2024 – 08/2024 | New Delhi Tilak nagar

- Assisted in developing and maintaining web applications using PHP, Laravel, MySQL, HTML5, CSS3, JavaScript.
- Contributed to backend module development, business logic implementation, and database operations.
- Resolved bugs and enhanced existing application features to improve functionality and user experience.
- Wrote SQL queries and supported database management for efficient data processing.
- Gained hands-on experience with Laravel, RESTful APIs, Git, and real-world software development practices.
- Collaborated with senior developers while following Agile and SDLC methodologies.

Education

MCA, Pranever Singh Institute of Technology (psit)

01/2022 – 02/2024 | Uttar Pradesh india

B.sc, Chhatrapati shahu Ji Maharaj University

2018 – 2022 | Uttar Pradesh India

Projects

DDA Awas Housing Management System

12/2025 – Present

PHP, Laravel, MySQL, jQuery, JavaScript, AJAX, Bootstrap

Roles & Responsibilities:

- Developed and maintained modules for online housing scheme applications, allotment, payments, and post-allotment services.
- Implemented role-based workflow management for Housing, Accounts, Finance, and Cash departments.
- Designed and developed multi-level approval workflows for refund processing and excess amount refund requests.
- Created dynamic dashboards and reports for different user roles and departments.
- Developed payment integration modules and handled payment status reconciliation.
- Worked extensively with complex SQL queries, joins, stored procedures, and database optimization.
- Implemented refund tracking and approval status monitoring systems.
- Developed REST APIs and AJAX-based functionalities for seamless user interactions.
- Created and maintained Laravel Blade views, controllers, models, and middleware.
- Fixed production issues, performed root cause analysis, and optimized application performance.
- Participated in requirement analysis, development, testing, deployment, and support activities.
